

Hi everyone, Cedar Jandreau the Brownfields Coordinator here again. I just wanted to share some exciting news to everyone about some cool possibilities coming hopefully this summer and next. We may have another large cleanup on the way depending on the amount of funding received. The cleanup would be for homes that have asbestos, led based paint, or anything else that falls under the Brownfields category. The homes that would be cleaned have to be on the Lower Brule Reservation. I am currently on the hunt to find as many as possible. Feel free to contact me if you have any questions or possible sites that may meet the requirements. My office phone number is 605-473-8056 and my email is cedarj@lbt-epo.org.
