

Who remembers the old Boys and Girls club? Have you guys noticed anything different? Well it's no longer there and is long gone. The idea of taking this building down began in February but the process didn't start until May. The Old Boys and Girls Club or Old Tribal Building as some remember it was nasty inside and a huge eye sore to the community. We luckily had a great crew to help from start to finish on taking it down. All we have left is the cement slab. The community really came together in the process of removing this building and creating a space for a new opportunity.
